The campaign for Tatiana’s Treasured Plaza at the Carmel Valley Community Youth Center is ramping up for a series of connection with the Carmel Valley Community Youth Center. They are kicking off fundraising, including an opportunity for playground component sponsorship. The goal is for the total amount raised to leave an impact of $250,000 as a gift to Monterey County, which will result in a materially stronger playground, and will provide a lasting legacy for students and community. The campaign aims to raise $100,000, which will cover the costs of equipment, installation, and other associated expenses. You can contribute to the campaign by visiting the website or contacting the organizers directly. For more information, visit the website or contact the organizers directly.
The same dynamic also creates negative impacts to the watershed's ecosystem and local wildlife. The reservoir system is causing a decline in stream habitat and fish populations, leading to the decision to remove the San Clemente Dam. This was a three-year project that, in addition to ecological consequences, also had monetary impacts. The reservoir system, instead of holding a lot of water, is now a three-year project that, in addition to ecological consequences, also had monetary impacts. The reservoir system, instead of holding a lot of water, is now 

Letter, continued from Pg. 1

If we don’t get out ahead of this problem, grow the current vocabulary and habits of policymakers in California, the only alternative left to us is to make or not to make a decision. Find Out More...

If you want to learn more about this subject, the letters are available on our website and in the Carmel Valley Review. For more information, please visit our website at carmelvalleyreview.com.

X. Commercial building and commercial insulation, and any insurable risk materials.

Y. Commercial building and commercial insulation, and any insurable risk materials.

Z. Commercial building and commercial insulation, and any insurable risk materials.
Sophia recalls, “I learned to move fast. I did a lot more than walk as a youngster. We had a small vegetable garden, and I had to pick all the vegetables, which I still do. I used a walker for shorter outdoor strolls, and when I was asked what I attribute to my age, I said, ‘Hard work is what I first thought of.’”

In early 2020, Sophia’s daughter, Judi, a trainer at a local gym, introduced her to hydrotherapy. “I think it’s been a lifesaver,” says Sophia. “It’s helped me with my balance, and I’ve had no falls.”

When it comes to attitude, “I try to think positive. I think change is good. It keeps things interesting.”

At Sophia’s request, her daughter coming later.
